Shorthorns - New Coliseum.

Standard Guarantee
OF
AMERICAN SHORTHORN BREEDERS
ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals are sold to comply with the laws regulating Tuberculosis and Bangs Disease of the state or country into which they may be shipped.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this Sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

SHIPPING ARRANGEMENTS: It is the obligation of the consignors and this Association to see that all cattle are properly loaded on cars or trucks as directed by the buyers for immediate shipment. Cattle will be at buyer's risk as soon as bid off, but every precaution will be taken to see that animals arrive in sound and healthy condition. **BE SURE TO LEAVE DEFINITE SHIPPING INSTRUCTIONS WITH THE SALE CLERK.**

LIABILITY: Although every possible precaution will be exercised to protect the safety and comfort of guests of the show and Sale, neither this Association, nor its representatives, nor the auctioneers or clerks, can assume any liability for accidents.

TERMS: The terms of the sale are cash unless other arrangements are made in advance with the consignor from whom you purchase. Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction.

INSURANCE: Coverage may be secured effective at the time of sale.

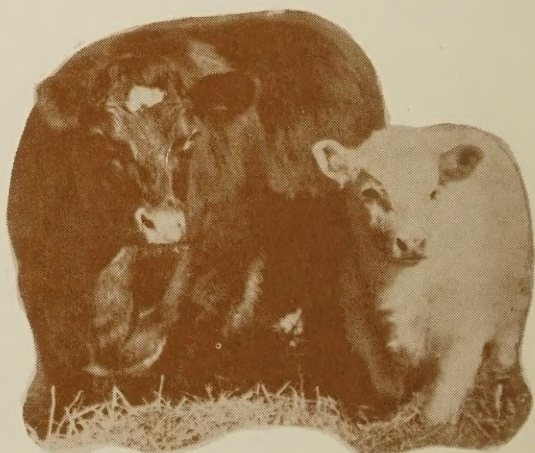

GUARANTEE: All animals sold in this sale will be backed by the Standard Guaranteed endorsed by the American Shorthorn Breeders' Association, which is printed in this catalog.

AUCTIONEERS: C. D. Swaffar, Tulsa, Oklahoma - J. E. Halsey, Des Moines, Iowa.

HOTEL HEADQUARTERS: Olin Hotel, 1420 Logan St., Denver, Colorado. Write direct for reservations, mentioning this National Shorthorn Show and Sale.

Nearly every Breeder can Use a Better Bull

Take a good look at your last crop of calves. Are they all you are seeking? Take a good look at your cow herd. Analyze their weak points . . . then select a bull showing strong characteristics in the direction you want to move toward improvement of your calves.

The bulls offered in this Sale have been selected because they have nearly everything the purebred breeder needs to improve his calf crop. Consignors to this Sale have entered outstanding individuals from select show strings to give buyers the ultimate in type and quality.

Western Editor Thinks

Shorthorns Have It!

"We feel that 1954 will be 'the' year in the livestock industry, with cattle that give efficient and economical gains having a definite advantage in making their owner a success in these times. That, we feel, should make the Shorthorn breed a popular choice with livestock men," writes Jim White, Editor and General Manager of Western Farm Life, one of the West's largest livestock publications.

The Scales Tell the Story:

More and more commercial cattlemen are turning to Shorthorn & Polled Shorthorn bulls to increase market weights in calves and yearlings. They are learning they get more than hybrid vigor in a Shorthorn or Polled Shorthorn - and that it's cheaper to breed the pounds on than feed them on.

The most prepotent traits in bulls are weight, gains and feed efficiency -- all traits in which the SHORTHORN has no equal. At the same time, cattlemen are opening their eyes to the vast numbers of blocky beef-type Shorthorn & Polled Shorthorn bulls being produced today -- bulls that are siring grand champion carloads and individual show steers all over the land. On the range or in the feedlot, Shorthorns & Polled Shorthorns are practical, built-for profit cattle. Their outstanding attributes of scale, weight for age and wide adaptability, combined with economical first cost, make them the logical choice for safe and profitable livestock investment. They thrive under the feed, forage and climatic conditions of every livestock section of the country.

They OUTGAIN all other beef breeds on grass, roughage, or grain . . . and OUTWEIGH all other beef breeds at any age. Yes, scale and rugged constitutions, more mother's milk, gentler dispositions and more efficient grazing and feeding traits enable them to put on beef pounds faster. They are brought to heavier weaning weights and this robust start carries over into the feedlot.

Here are sales weight comparisons made by Raymond H. Lee, Isabell, So. Dak. on steers and heifers of the same age, raised in identical conditions as the other cattle marketed at the same time, showing what Shorthorn bulls will do.

1951 Steers	Avg. Wt.
Whiteface -----	777
Brockleface -----	845
2d Shorthorn Cross----	866

1951 Heifers	Avg. Wt.
Whiteface -----	741
Brockleface -----	774
2d Shorthorn Cross----	798

1952 Steers	Avg. Wt.
Whiteface -----	809
Brockleface -----	844
2d Shorthorn Cross----	874

1952 Heifers	Avg. Wt.
Whiteface -----	None Sold
Brockleface -----	761
2d Shorthorn Cross----	813

The practical answer to the producer's problem is a SHORTHORN OR POLLED SHORTHORN bull. He will INCREASE calf crops 10 to 15 percent; INCREASE weaning weights 50 to 100 pounds; INCREASE yearling weights 100 to 200 pounds; INCREASE milk in replacement cows; INCREASE resistance to pinkeye and all other diseases; and INCREASE profit by returning higher prices for market weights.

When you breed or feed SHORTHORNS OR POLLED SHORTHORNS you get more beef per acre. To increase your cattle profits join the march to Shorthorns! For purebred breeding, for feeding, for sires in range and farm herd improvement, and for cross-breeding, Shorthorns and Polled Shorthorns fill the most exacting needs!

Shorthorns Best in Every Weigh

W L BANK STANDARD 4TH - His sire has been consistent in producing calves of this same excellent type and quality. This will be your first opportunity to purchase a son of this outstanding sire.

Like Them? of Course You Do!

Development of such Shorthorns is an art . . . and few of us ever attain the propensity of returning more than we are given. Yet here the example is profounded by the fact that the basis of such accomplishment is not beyond the reach of anyone who would take advantage of the opportunity afforded.

Vigilant selection, devotion to principles, unyielding faith in the future and application of practical methods of production by men who developed Shorthorns are the constant reminders that our task today is made easier. We have the material to further develop the world's most useful cattle . . . and should face the future more confident because of the simplicity.

That's the kind of Shorthorns you will find in this sale . . . bulls and females to provide security and confidence in the future.

HHF MANDATE BOUNCE - Is a full-brother to the 1953 Denver Grand Champion Bull. His sire is the 1948 International Reserve Champion and sire of a great many top show winners. This good bull is the weight-for-age kind, with thickness and depth of body along with quality and smooth-fleshing.

Good Bulls for greater Progress

Investing in an outstanding purebred Shorthorn or Polled Shorthorn bull is the best way to progress in the beef cattle business. It is far cheaper to breed deep middles and naturally thick bodies on calves than to feed them on . . . and if a calf has not been given the right heritage no amount of feeding and handling will ever develop it into a top animal.

A good Shorthorn or Polled Shorthorn bull will raise the standard of the calves from just average cow herds immediately . . . and owners of choice cow herds cannot afford to invest in a bull that doesn't give all the evidence of having the ability to sire calves equal or superior to their dams.

The bulls offered in this sale are just the type to lead the progress of the breed in the future.

I S F BLOSSOM - Is our good Junior Yearling show heifer. BRED TO GOLDEN OAK PRINCE 28TH on October 27th, 1953.

If the Trend is to Grass...

The Trend is to Shorthorns!

More and more emphasis is placed on grass beef production in the United States and here is what the editor of the National Livestock Producer writes: "Some farmers have informed me that the reason more producers are switching to purebred Shorthorns is that they have been in other breeds for so long and have bred only for the block of beef to such an extent that their herds are losing some of their rustling qualities. With livestock programs shifting to a growing and grazing basis, that quality is very important. They have said that a Shorthorn bull crossed with some of these cows of other breeds seems to restore that quality . . . and they're buying Shorthorn & Polled Shorthorn bulls in greater numbers than ever before."

ROAN ROSEBUD 2D - Is a nice type heifer from a good producing family.
BRED SEPTEMBER 15, 1953 to MAJOR MERCURY 3D 2614378.

A Study In Polled Shorthorn Type

These Polled Shorthorn females present a study in breed type which may well guide those who are building herd foundations. They show a striking balance of superior depth, width, thickness, constitution, carcass pattern, strong bone, quality and feminine character. The heifers represent second and fourth generation breeding by one of America's internationally known Polled Shorthorn breed builders and improvers.

This illustration, carefully studied, can supply the less experienced with some basis upon which to fix their ideals and by which to interpret showing and sale happenings. Females of this type and quality are offered in this Congress.

43

	Bracelet 21st x2127328 Roan, Albert Hultine & Sons	Collynie Fascinator x1957471 Red, Albert Hultine & Sons Bracelet 18th x1979259 Roan, Albert Hultine & Sons

LYNNWOOD BRACELET 8TH - Comes from the Bracelet family considered one of the best in the Hultine herd. Her dam is by a great breeding bull in the Lynnwood herd and later sold to Canada where his daughters have given a good account of themselves, just as they have done at Lynnwood. Pretested clean and Bangs Vaccinated.

Shorthorns are Tops for Dressing

The highest dressing percentage ever recorded in show cattle was rung up for the 1951 Shorthorn champion at the Kansas City American Royal Show - 71.1%. Highest dressing champion carload at the 1952 International Livestock Show carlot competition were Shorthorns (grading prime) at 66.2.

More per pound...

More Pounds!

At the 1953 Chicago Feeder Show, world's largest feeder cattle competition, Shorthorn steer calves outpriced the sale average for steer calves by \$3.00 per cwt. They outweighed the average for steer calves by 30 pounds per calf... in other words, **MORE PER POUND... MORE POUNDS!** Shorthorn heifers also brought \$3.00 per cwt. more at the same show.

Commercial Shorthorn producers are the biggest money makers in the business today. This greater demand for Shorthorn commercial cattle is reflected in purebred demand and will mean ever-increasing markets for Shorthorns and Polled Shorthorns.

The Purebred Breeder is the Tool Maker of the Beef Industry

The ultimate end of all beef cattle is directly or indirectly the market. Purebred breeders, commercial producers and cattle feeders are all interested in improvement in the breeding of cattle, since higher returns at the market naturally accrue to those who have done the best job of selecting better-bred cattle. The breeder of registered cattle plays the major role in improvement of beef type. He must conduct a conscientious and studied breeding program that will produce the type, conformation, thick and smooth fleshing and early maturity desired by the commercial cattleman.

THE SHORTHORN IS A BEEF FACTORY WITHOUT EQUAL

Seven times champion yearling steers over all breeds out of eight Chicago feeder shows - that's the record of Josef Winkler, Castle Rock, Colo. cattleman. He has also had the Grand Champion load of feeder calves over all breeds four times out of the past five National Western Stock Shows in Denver. Few cattlemen can boast the show accomplishments of this Austrian-born Coloradan. In all, he has had the Grand Championship at the great Denver Show seven times since 1925 - more than any other man. Winkler has a roomful of trophies and ribbons to show for it. In 1947, he was voted "Cattleman of the Year" by the Denver Record Stockman. He breeds a modern beef animal, short-legged and of unusual thickness. He has picked his sires carefully and even today finds it hard to locate just the right ones. At the 1951 International he bid up to \$9500. for the Grand Champion Bull sold by McCone Bros., Defiance, Iowa.

These uniform "blocks of beef" represent the proof of Shorthorn performance in beef production. Any one of them would make an outstanding individual show steer. The credit for bringing them to this uniform carlot finish goes to Hugh Morris, Ainsworth, Iowa, who made up the load from purchases in Montana and Colorado. In the packing house they dressed 65.3 percent, outscoring the champion Herefords by one percent.

The modern Shorthorn is a beef factory that is built for better beef at maximum efficiency, and the present-day purebred breeder is making blue-prints for even greater improvements in his output for years to come.
